REPORT OF FISCAL YEAR.

Main Feature The Causes of Silver's Decline.

DIRECTOR SAYS OVERPRODUCTION

Sixty Million in Domestic Gold Deposited for Coinage. Seventy-One Million Coined This Year.

By Wire To THE TELEGRAM.

Washington, Oct. 18.—Director of the mint Preston in his annual report of the fiscal year 1897 makes the feature of his report the causes for the decline in the price of silver. He attributes this decline to the enormous increase in production and says that it would be impossible to restore it to its former value even though the mints of Europe are reopened to its coinage.

The report says that \$60,000,000 in domestic gold bullion has been deposited for coinage during the year, nine and a half millions of silver have been purchased for subsidiary coin. The coinage of gold for the year was \$71,000,000, silver \$21,000,000. In subsidiary silver coin \$900,000 has been minted.

For 30 Days

Report of Baptist Church.

Yesterday was the second anniversary of the pastorate of the Rev. Livingstone Johnson. The pastor devoted the morning hour to a review of the year's work and at night preached a special sermon on procrastination. The report showed forty-seven members added during the year and a total membership of two hundred and twenty-nine.

During the year the collections were \$2,800. Taken altogether it was the most prosperous year in the history of the church.

A Growing Enterprise.

Public spirited and enterprising people always rejoice at the success of home enterprises. In this connection we are pleased to note the fact that the Southern Varnish Company is still growing.

The company has just received an order from one firm for thirty-five barrels of varnish. Their trade is not confined to small a territory, but is widening and broadening and now covers several states. May this excellent firm continue to meet with deserved success.

Concert Friday Night.

There will be a concert at the court house Friday night for benefit of organ fund of West Market street church. Price of admission will be 25 cents.

Towed It Out to Sea.

By Wire To THE TELEGRAM.

New York, Oct. 18.—At the Morgan Towing company they said this afternoon that their tug Revise was towing a barge scow out to sea. The tug has not yet reported, having towed the filibustering schooner Silver Heels to sea early yesterday morning.

AT CENTENARY YESTERDAY.

Pastor Gay Presents Some Strong Facts in the Morning Sermon.

The protracted services at Centenary church are still in progress. At yesterday morning's service, Mr. Gay preached an earnest sermon from the text: "And when the day of Pentecost was fully come they were all together in one place."

The pastor said there had been preaching enough in Greensboro in the last two years to save the town, but still there are hundreds here who are absolutely untouched by preaching. What is the matter? We must change our methods, or change our preaching. We have heretofore employed two methods in carrying on revival meetings, and both of them have been failures. One method is to get evangelists, men who are specialists in this line of work. We have done this and have had some great times, but when the meeting is over what is left? The newspapers report two or three hundred conversions, but the church register fails to lengthen perceptibly. This is not the Pentecostal method.

The preacher said he did not question the piety or religion of these men, the evangelists. They are earnest and sincere.

The other method is for the pastor to do all the preaching himself. This method has also failed. The preacher prepares a sermon specially adapted to his own people, and when the time comes his people are somewhere else.

We have failed as a people to meet the conditions as on the day of Pentecost. We have never seen the church of God fully comply with these conditions.

Here the pastor said it was impossible for all members of the church to get together, but he thought we might do a great deal better than we do. A few men can't do the work of several hundred. The people must come together if any very great outpouring of the Holy Spirit is to be expected. The whole trouble is that we haven't adopted the Pentecostal method. It is not the preaching which brought the Pentecost, but the coming together of the church with one accord and one purpose. There is a blessing for any church that will comply with these conditions.

There were four accessions to the church at the morning service.

At the night service there was a good attendance and a strong sermon was listened to with close attention.

IMPORTANT FIND OF GRAPHITE.

Black Mountain Said to Have a Very Rich Vein.

The local excitement of this week is the reported deal in a graphite mine on the head of Curtis creek. Major Miles, who is interested, has reports of experts to the effect that there is a large body of the material. A sample shown seemed to be very rich. The claim is made that we import hundreds of thousands of pounds annually, and that the price is \$40 per ton. The claim is also made that the property is in the hands of men of capital.

It may be the biggest mineral interest the mountains have yet produced.

SHORTAGE OF WHEAT.

C. A. Pillsbury Says a Closing of Flour Mills Seems Inevitable.

Minneapolis, Oct. 17.—C. A. Pillsbury, when asked about the prospect of a wheat shortage in Minneapolis, said today:

"I think you may safely say that there will be shortage. To just what extent it will affect the flour mills I cannot say, but with shipments being made as they have been for sometime past, the closing down of the mills seems inevitable. They will not be able to run regularly unless the scientific men discover some chemical process of making the cereal, though they may not be shut down long at any one time."

Not So Heartless.

A sort of idea has long prevailed that showmen are altogether a rough, heartless and unfeeling set. A pretty little instance, which partly dispels this idea, occurred at Charlotte the other day, we are told, while the Robinson-Franklin show was in that city.

A few years ago Keeper King was killed in Charlotte by the big elephant while the show was there. He was buried and a pretty monument was erected by the show people.

Being in Charlotte last week Mr. Robinson had the grave beautifully decorated with flowers, and standing around the tomb, the band played several appropriate selections.

A showman's life may be hard and a tough one, but the above shows that his heart is not always hard, and that he is capable of tender emotions.

AUTONOMY CANNOT END IT

Opinion of the Business Men of Havana.

ARE HOLDING SECRET MEETINGS

Not Enough Prominent Loyalists on the Island to Fill all the Offices Under the New Arrangement.

By Cable To THE TELEGRAM.

Matanzas, Cuba, via Key West, Oct. 18.—The more important business element here in Havana and elsewhere seems to have arrived at the conclusion that the Madrid government cannot end the Cuban struggle by arranging to grant autonomy to Cuba. This opinion is held because among the autonomists who are also loyalists there is not a sufficient number of persons to fill all the offices. This being the view of a number of important merchants and planters, certain prominent Cubans have been holding secret meetings to further the movement for annexation to the United States.

SALISBURY WILL NOT RESIGN.

Report of the London Chronicle Was Premature.

By Cable To THE TELEGRAM.

London, Oct. 18.—The Marquis of Salisbury telegraphs from Hertford saying that there is absolutely no truth in the story published by the daily Chronicle, of this city, to the effect that he is anxious to retire as premier on account of ill health of the Marquioness of Salisbury and that an early reconstruction of the cabinet was, in consequence, probable.

MORE FILLIBUSTERS

Gone to Cuba From the Western Coast.

By Wire To THE TELEGRAM.

Tampa, Fla., Oct. 18.—It is reported that an expedition left Charlotte Harbor on the west coast for Cuba yesterday with twenty-five Cubans, guns, ammunitions, two rapid fire guns and a quantity of medicine. It is said that the gun boat Annapolis has gone in pursuit.

C. G. RINCKNEY ASSIGNS.

Liabilities Said to Be Over Two Hundred Thousand Dollars.

By Wire To THE TELEGRAM.

Charleston, S. C., Oct. 18.—C. G. Rinckney, Jr. who has been one of the wealthiest and most prominent mining operators in the South, suspended payment today. The liabilities are over two hundred thousand dollars.

RIOT AT FLORENCE.

Number of Rioters Killed and Wounded by Police.

By Cable To THE TELEGRAM.

Rome, Oct. 18.—A serious riot occurred at Florence yesterday during the funeral of a leading socialist named Varnucci. The gendarme killed a number of rioters and wounded some seriously.

DEATH OF A. R. HEATH.

A Brother of Mrs. F. S. Eldridge and Well Known Here.

A telegram was received here today announcing the death of Mr. A. R. Heath, of Richmond, Va. He was a brother of Mrs. F. S. Eldridge, and was well known in Greensboro, as he resided here for many years.

Reasonable Rates Popular.

By Wire To THE TELEGRAM.

New York, Oct. 18.—The reasonable rate carriage service established by the New York Central Railway, is proving so popular that there is talk of extending the same to other important cities.

This popularity is due, in a measure, to the comfortable and attractive vehicles. Motor carriages are being suggested for the service.

Surgeon General Dead.

By Wire To THE TELEGRAM.

Washington, Oct. 18.—Medical Director Newton L. Bates, the president's private physician, who was appointed two weeks ago surgeon general, died this morning at 9:15 o'clock. He has been ill for some time and took the oath of office in bed.

New Portuguese Minister.

By Cable To THE TELEGRAM.

Lisbon, Oct. 18.—Count Demacedo, the minister to Spain, has been appointed minister of foreign affairs.

NOKANSASDINES FOR MRS. LEASE

Pops Say She Has a Good Thing in George's Campaign.

TOPEKA, Kan., Oct. 17.—Several populist leaders here have written to Ignatius Donnelly, of Minnesota, informing him that his appeals for aid for Mrs. Mary E. Lease fell on deaf ears.

Donnelly, in his newspaper, is asking populists to contribute 10 cts. each to the fund to be used to redeem Mrs. Lease's home in Wichita, the mortgage on which was foreclosed recently by a New York loan company. The Kansas populists informed Donnelly that Mrs. Lease was making a good thing out of the Henry George campaign, that she was able to wear diamonds, silks and satins and live at a fashionable hotel in New York.

Donnelly was informed also that instead of Mrs. Lease being "ground down under the heel of Wall street," she was able to mingle with the nabobs she has for years denounced as "robbers."

The Armor Plate Board Comes South.

Washington, Oct. 18.—The armor plate board, Commodore Howlett, Lieutenant Endicott, Captain McCormick, Lieutenant Perry and Lieutenant Fletcher, accompanied by Lieutenant Chambers, secretary, and C. W. D. Knight, clerk, and M. V. Richards, land and industrial agent of the Southern railway, left Washington tonight over the Southern railway to look up the advantages at different cities in the south for the location of the projected government armor plate plant. Birmingham, where they arrive tomorrow night, will be the first place visited. They will remain there two days. Next a day will be spent at Sheffield, Ala., and from there Chattanooga, Knoxville and Elizabethtown, Tenn., will be visited.

Another Opera House Victim.

By Wire To THE TELEGRAM.

Cincinnati, Oct. 18.—At midnight Mrs. A. Scudder, a Covington, Ky., victim in the opera house disaster here, died in the hospital this morning. There were two deaths last night from that cause.

THE JOURNALISTIC PHARISEE.

The Democracy of Mr. Gorman, of Maryland, is by no means above reproach. It is not the style we should care to see affected by the country as a whole. It has a few quavers in it undoubtedly but it may at least claim to be some sort of Democracy. The holier-than-thou tone the Baltimore Sun has adopted towards him will not deceive anybody. The Gorman brand of Democracy is at least preferable to the Solar variety.

It would take an expert in political anatomy to distinguish the Sun Democracy from Hanna Republicanism. To the lay observer they are as much alike as the two proverbial peas. The Sun worked for McKinley's election, so did Mr. Hanna. The difference in their politics does not appear when judged by the only practical test, their actions. Undoubtedly the Sun had a right to work for Mr. McKinley's election, just as every newspaper and every citizen had. But having done so its attempts to dictate Democratic policy are too ridiculous to be taken seriously.

Mr. Gorman is unquestionably a "smooth citizen" but there is one smooth little phrase that evidently reached the quick: "The spectacle of the Democratic party betrayed into the hands of the enemy by those whom Democrats have in the past exalted and enriched." The Sun's reply showed quite plainly that the thrust went home. The cap fit too obviously and the Sun lost its temper in consequence. It is not well to lose the temper in dealing with Mr. Gorman and the Sun is pretty sure to find it out before the curtain is rung down on the last scene.

It betakes itself to charges of insincerity and pettily asks "why does not Mr. Gorman step down and out without referring the matter to us?" If the talk is of sincerity the Baltimore Sun dwells in a house of very cheap and ordinary glass.

As a pharisee in journalism the Sun is an excellent success but there is none so easily rendered ridiculous as the Pharisee; the Sun now realizes that very keenly. Mr. Gorman had to pay for his joke at advertising rates but it was worth the price. Well swatted Mr. Gorman.

GENERAL WEYLER will probably use the extra time allowed him in Cuba in taking notes for a few additional victories for his volume of memoirs which some American publishing house will announce before many moons.

OUR esteemed contemporary, the Charlotte News, is an authority upon two subjects, at least. Snakes and hens. To those who desire any "figurin' or statistics" on either of those lines the News can submit eye openers.

The fellow who proposes to change silver into gold now sprouts semi-annually at longest. An assistant professor in the University of California is the latest solver of the easy problem.

As a booster of General Tracy for the majority of New York the Sun does not appear to have been fortunate in its slump to the Republicans.

If "a man who takes unto himself a wife gives hostages to fate" we should like to know what donations the Boston man made who married three wives on the munificent salary of five dollars a week.

THE Hayeeder will please note that winter is drawing near and coal is likely to be high. Besides the steam radiator, like the fusion administration, is given to getting out of fix. Let her sizzle.

THE W. C. T. U. is an excellent organization but, like another we might mention, would accomplish more by not spreading itself over quite so many demands. To demand everything means to end by getting nothing.

THE Athens theatres have just resumed operations again. The gigantic farce on the Thessalian frontier having ended and the after piece being duly rendered, amusement of some kind must be afforded.

AMBITIOUS men will please note that the one time husbands of Mrs. Langtry and Amelia Rives ended up in an insane asylum. That is provocative of sympathy, but not surprise.

THE Marlborough heir having been baptized safely the world will have to possess its soul in patience until the appearance of a "little tooty" shall be duly chronicled.

THE company that was playing in the Cincinnati theatre when the ceiling fell may now truthfully say in the bills that the play brought down the house.

AND now that the King of Corea has proclaimed himself emperor who will tell the difference between a king and an emperor, any way?

WITH the New York mayoralty fight on, the yellow fever will probably turn green with envy.

ATTACKED BY NATIVES.

Cecil Rhodes Suffering from Wounds Received at Their Hands.

London, Oct. 17.—The Daily Graphic says it learns from a trustworthy source that the condition of Cecil Rhodes, who was reported a few days ago to be seriously ill at Inyanganga, and whose sickness has since been attributed to fever, is really due to injuries received at the hands of hostile natives in the vicinity of Salisbury, Mashonaland.

According to the Graphic, Mr. Rhodes, while traveling, lost his path and was seized by unfriendly natives, from whom he narrowly escaped with his life. Beyond this information no details are given.

NEWS OF THE TAR HEEL STATE.

It is said another rate war is soon to begin on lines between Norfolk and Atlanta.

A. J. and C. L. Perry were acquitted of the charge of killing of Steven Johnson, colored, at Clinton last week.

The Southern Chemical company, of Winston, was incorporated Saturday by the secretary of state. It has a capital of \$100,000. The incorporators are Dr. H. B. Battle, P. H. Hanes, W. T. Brown and F. H. Fries.

In one section of the state there have been great rains this week. In Surry county the damage to farmers and mill property is put at \$30,000. Many farmers were nearly ruined. Trees were leveled. There must have been a cloudburst.

Governor Russell's private secretary writes Chairman Follin, of the Winston Tobacco Fair Association, that owing to important state duties, and his prior acceptance of several invitations, the Governor will not be able to attend the Tobacco Fair here next month.

Ex-Superintendent Leaser, of the penitentiary, absolutely disproves the accuracy of Auditor Ayer's statement that "the penitentiary cannot be made self-sustaining," by saying that last year he made it self-sustaining and paid every cent of expenses out of the money it earned.

There was a rumor last night that James H. Young, colored, was sure to get the Raleigh postoffice. Young said today that just as soon as Postmaster Busbee's time expired he would enter upon the duties of postmaster. But no one save Young can be found who believes any such thing. White Republicans laugh at the idea.

A gentlemen just from Kingston says the gunboat Neuse, which was partially burned there during the war, is now high and dry and many yards from the water, so low is the Neuse river. The boat is being stripped of iron work, boilers, etc. It is the first time it has ever been visible since it was burned.

Superintendent Smith says that a big report of the penitentiary will be made to the directors next week by him. He said: "I have nothing to say except that I am satisfied." A merchant there says Smith got good prices for his cotton which was recently sold; \$180 more than the merchant had offered.

The railway commission files its answer to the Western Union Telegraph company in the case which comes up at Wilmington November 1st. It says rates are too high; that profits are charged on watered stock; that over 6 per cent. of profit has been made from fictitious capital, and that an enormous surplus has been accumulated.

Albert Hinton caught a young alligator on Jerry Smith's place about one hundred yards from Neuse river on Friday. He is ten or twelve inches long and was caught in a little duck pond, adjacent to the Neuse near Millburne. He was evidently hatched in the river, and it is believed here there must be a big alligator in the river. For years people have been bringing little alligators from Florida and turning them loose. This is the result.

A special to the Wilmington Messenger says: "Alex Gilmore, the Cumberland county outlaw, was shot to pieces near Ingold, Sampson county, night before last by Constable Kelly and a posse of deputies who attempted to arrest him. Seven loads of duck shot were fired at him and nearly all took effect. Gilmore escaped into the swamp, but persons who have since seen him report that he is too badly wounded to live. He says he will not be taken alive."

This Young Man

saw one of the Mrs. Jane Hopkins books, describing the make of the celebrated Mrs. Hopkins kind, and straightway hid himself to No. 300, South Elm Street, and secured one of the

Mrs. Hopkins Suits.

The good judgment of this boy was so practical that one of his comrades composed the following lines.

There was a boy in our town,
And he was wondrous wise;
He went into a Clothing Store,
Near to his home it lies.

And when he saw the Hopkins Clothes,
With all his might and main
He jumped into a suit of them
And ne'er came out again.

CHARLOTTE, N. C., April 5, 1895.

MRS. JOE PERSON.
Madam:—last year I was afflicted with some skin trouble affecting my feet, pronounced by my physician to be erythema. I was confined to my room for some two months and was lame for six months or more. After trying many remedies without effecting a cure, I resorted to your Remedy. After taking three bottles I began to improve, and before I had finished the fifth or sixth bottle I was practically free of the trouble. Once since then there recurred symptoms of its return, when I again resorted to your Remedy, and again the trouble disappeared. I believe I am indebted to you for relief from a very serious affliction.
Yours truly,
HAMILTON C. JONES.

The elephant keeper Smith, who was so dangerously injured Saturday, is at Brooks Hospital, and is reported to be improving. The other injured man, Jenks, was able to be carried away with the show Saturday night.

Ike Hanes, colored was arrested Saturday night by Policeman Pearce for lambasting a woman. The woman it seems, had been talking to another fellow and Ike was evidently of the opinion that it was against the law for his girl to talk to any one but him, so he flogged her. He will tell his tale of woe to the mayor, and his Honor may possibly file a dissenting opinion.

I regard the meeting at the court house tonight one of the most important of any that has ever called our people together. Do we half appreciate the value of building up insurance companies in our midst? It is certainly time our people are rallying on their right to prevent a great combine from crushing a home company that has been worth thousands, and is destined to be worth millions of dollars, to our city and state. THOUGHT HE WAS IN JAIL.

A Good Joke on a North Carolina Postmaster.

A TELEGRAM man this morning got hold of a good joke on Mr. J. G. Foushee, the clever auditor of the Durham & Charlotte railroad. Mr. Foushee also holds the position of postmaster at Glendon, his old home place in Moore county, a station on the above named road.

It appears that it has been Mr. Foushee's custom to spend the night at Glendon and go up to Glendon on the morning train. Some time ago the train was considerably behind time, and the carrier of a star route which was supplied from the Glendon office refused to wait for the train, after waiting the usual time.

Of course the country offices failed to get their mail that day. The carrier simply reported the office at Glendon locked up, and the postmaster at Tillman, the end of the star route, reported the matter to the postoffice department at Washington. The report was very poorly written and the authorities read "that the postmaster at Glendon was locked up."

An inspector was at once dispatched to Glendon to install a new postmaster and reopen the office. To his great surprise he found Mr. Foushee at the old stand quietly doing business. A few words of explanation revealed the ridiculous mistake, and the laugh was on both Mr. Foushee and the inspector.
